github.com/amirtha-varshine | Puducherry, India

SUMMARY

B.Tech. Information Science & Engineering student with experience in AI/ML, research, data analytics, and full-stack development. Experienced in developing predictive models, preprocessing real-world datasets, and working with satellite and environmental data for research-oriented applications. Also skilled in building web applications and AI-powered solutions using Python and modern web technologies.

TECHNICAL SKILL

Programming Languages: Python, C, JavaScript, HTML, CSS

Research: Remote Sensing, Geospatial Data Analysis

Frameworks & Libraries: React, TypeScript, FastAPI, Flask, Scikit-learn, NumPy, Pandas, Node.js, Express, MongoDB

Databases: MySQL, SQLPlus

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Jupyter Notebook, Google Colab, SAP ERP

Soft Skills: Analytical Thinking, Problem-Solving, Leadership, Communication, Time Management

PROJECTS

Forest Fire Susceptibility Mapping & Early Warning System | *Python, Machine Learning, Remote Sensing*

- Developed a machine-learning-based framework for forest fire susceptibility mapping and risk prediction using fire occurrence, weather, and satellite-derived data.
- Performed data preprocessing, feature engineering, spatial/temporal data integration, and model evaluation for fire-risk classification.
- Explored machine-learning and deep-learning approaches for improving fire prediction and susceptibility mapping.

ResuMatch | *React, TypeScript, FastAPI, Python, Claude AI API, NLP*

[GitHub](#) | [Live](#)

- Developed a full-stack AI resume screening tool with a React/TypeScript frontend and FastAPI backend, supporting multi-format uploads (PDF, DOCX, PNG, TXT).
- Integrated Claude AI API for NLP-powered keyword extraction, ATS compatibility scoring, and automated smart feedback generation.
- Implemented real-time report generation providing candidates with actionable content optimization insights and job-match analysis.

CGPA Calculator | *HTML, CSS, JavaScript*

Oct 2025 | [GitHub](#) | [Live](#)

- Designed and deployed a web-based CGPA calculation tool aligned with institutional grading policies, actively used by students for academic performance tracking.
- Implemented credit-weighted GPA computation logic with a dynamic UI, reducing manual calculation errors for end users.

PROFESSIONAL EXPERIENCE

Research Intern | National Institute of Technology Puducherry, Karaikal

Jun 2026 – Jul 2026

- Developed a forest fire susceptibility mapping and early warning framework using machine learning, deep learning, remote sensing, weather, and fire data.
- Performed preprocessing, feature engineering, model evaluation, and contributed to the research paper's methodology and documentation.

Data & Operations Intern | Uno Minda

Jun 2025 – Jul 2025

- Worked within SAP ERP workflows across procurement and inventory modules, gaining practical exposure to enterprise data management and business process documentation.
- Maintained accurate transactional records and supported data integrity initiatives across departmental databases.

EDUCATION

Bachelor of Technology — Information Science & Engineering

2023 – 2027

Women's Engineering College, Puducherry | CGPA: 6.57 / 10

Relevant Coursework: Artificial Intelligence, Full Stack Development, Machine Learning, Data Structures & Algorithms, Database Management Systems, Computer Networks, Information Security, Information Retrieval, Cloud Computing, Data Mining & Warehousing.

CERTIFICATIONS

Data Analytics	NoviTech	Jul 2025
Computer Graphics	SWAYAM NPTEL	Sep 2025
Python, Flask & HTML	Udemy	Mar 2026
AI Coding with Windsurf IDE	Udemy	Feb 2026
Azure AZ-900: Cloud Concepts	Microsoft	Mar 2026
Azure AZ-900: Cloud Service Types	Microsoft	Mar 2026
Introduction to Generative AI & Agents	Microsoft	Mar 2026

ACHIEVEMENTS & LEADERSHIP

Chief Executive | Cyber Security & Ethical Hacking Club

2024 – Present

- Led a 50+ member club, organizing technical workshops, hands-on training sessions, and digital security awareness programs for the college community.

Lead Organizer | LUNOVA '26 Technical Symposium

2026

- Coordinated the college's inaugural technical symposium in collaboration with the Tech Wizard Club and Cyber Security Club, managing end-to-end event logistics and technical tracks.
